Subject: RE: Spokane Class 1 airshed redesignation submission document - Preliminary screening model for air impacts from Smelter near Kalispel Reservation

Thanks Ken.

And pass our thanks onto the Spokanes the next time that you talk with them. It will be great to have a copy of this back in our records.

Dave

Dave and Wenona,
Here is the Spokane's Class 1 redesignation submission documents they so kindly sent us. I told them I would forward it on to you with their permission. --Ken

Thanks Ken.

Interesting stuff.

If we do end up doing some screening modeling, our modeler will need to get some more detailed information from the company (or Ecology if they've got something from the company yet).

Look forward to talking more soon.

Dave

Hi Wenona,

Thank you for your time today, and as we discussed, the Tribe needs to understand how the proposed smelter might impact the home of the Kalispel people and understand how a redesignation of the Tribes airshed to Class 1 might affect the PSD permitting outcome and the Tribe's air quality. If there were a way that EPA could help to do some screening modeling, we think it would help the Kalispel develop the capacity to best protect our right to clean air on the reservation.

Thanks for the consideration --Ken
